FINAL SITE-SPECIFIC FINAL REPORT, ORDNANCE AND EXPLOSIVES RESPONSE
ACTION, EAST SHORE HONEY LAKE BRAC PARCELS, SIERRA ARMY DEPOT,
CALIFORNIA

Dear Mr. Hubbard:

The Department of Toxic Substances Control (DTSC) has reviewed the document titled "*Final Site-Specific Final Report, Ordnance and Explosives (OE) Removal Action (RA Report), East Shore BRAC Parcels, Honey Lake Demolition Area,*" dated June 2005. The RA Report was prepared for the U.S. Army Corps of Engineering and Support Center, Huntsville District, by American Technologies Incorporated.

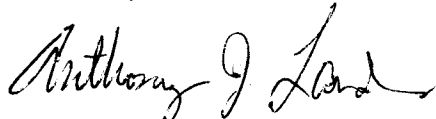

The RA Report documents the completion of the Munitions and Explosives of Concern (MEC) cleanup at the East Shore BRAC Parcels. The MEC cleanup activities were specified in the Final Remedial Action Plan (RAP) approved by DTSC in June 2004, and the Ordnance and Explosives Response Action for East Shore BRAC Parcels dated March 24, 2004.

DTSC has reviewed the RA Report and has determined that all appropriate response actions have been completed for the intended use of the property and that no further removal/remediation is necessary for the East Shore Honey Lake BRAC parcels. DTSC will consider the final remedy-in-place once the Land Use Covenant has been recorded with Lassen County.

Mr. Chuck Hubbard
